

HONOR CONFEDERATE WOMEN.

November 21st Set Aside For Observance of Memorial Day.

The following self-explanatory address has been issued to the people of Mississippi:—

Headquarters of Confederate Women's Monument Committee for Mississippi. Rosedale, Miss., Nov. 5, 1910.

To All Mississippians:

I call your attention to the fact that the United Confederate Veterans at their last reunion in Hattiesburg adopted the following resolution:

Resolved, That the 21st day of November be named as "Memorial Day", and on that day all Confederate Veterans Sons of Veterans, United Daughters of the Confederacy, and Daughters of Veterans of Mississippi take the necessary steps to collect funds for the Confederate Women's Monument, and remit same to Clay Sharkey, treasurer of the fund at Jackson, Miss. That all teachers of public school give public notice of this, and ask each scholar to contribute to the fund in any amount they may deem proper; that our colleges be requested to do likewise, and each private school do the same, the amount so contributed to be remitted to the treasurer as above named. Our mothers must have a monument to their heroism, and it must be done at once."

We earnestly call on all veterans, Sons of Veterans, United Daughters of the Confederacy, Daughters of Veterans, school children, and upon all who love and serve the Women of the Confederacy, to lend us their assistance in making monument day a grand success. We ask that each contribute something to this noble cause and induce others to contribute.

We ask that the chairman of the monument committee in each county take this matter in hand by organizing sub-committees in each town and precinct, and taking such other steps as he may deem necessary or expedient to secure liberal contributions from his people.

We must have at least ten thousand dollars by June 3, next, the day fixed for laying the foundation stone, on a site to be selected at Jackson, Mississippi, prior to that time, by a committee heretofore appointed for that purpose.

We especially ask that all of the news papers in this and adjoining States will publish this address, and aid the cause, editorially and otherwise.

Yours very truly,

W. H. GRIFFIN,
CHARLES HUMPHREYS,

W. S. COLEMAN,

CHARLES SCOTT, Chairman.

Confederate Women's Monument Committee for Mississippi.

INCOMPETENT NEGROES DELAY CENSUS REPORTS.

Louisiana and Mississippi Suffer From the Negro Enumerators.

A Washington Special says:—The work of incompetent negro enumerators is delaying the completion of the census in every Southern State. Louisiana and Mississippi naturally are the greatest sufferers, there being a larger number of negro enumerators among the force in these States than any other. The fact that they have done their work in an inefficient manner is admitted in a guarded manner by minor officials at the Census Office.

The higher officials, having a regard for the politics of the matter, could not be expected to even hint that the negroes are not among the most efficient employees of the service, especially at a time like this, when President Taft is naming a Harvard negro to be an Assistant Attorney General and is thinking of sending a supercilious yellow citizen of Ohio to be collector at Honolulu.

It is a fact, however, that in Louisiana and Mississippi the reports made by the negro enumerators have required an unusual amount of correction.

The lines of the enumeration districts did not confine the effects of the sons of Ham in their determination to find and list every dweller in their vicinity. In fact, many of them did not appear to understand that they were to work only in a prescribed territory, but thought their commissions authorized them to canvass the territory with

which they are familiar and see to it that no man escaped.

This straying from the districts has been the cause of the greatest delay in getting the enumerators' reports in shape for compilation. Straying meant duplication in some places and failure to enumerate in others. Thus far, however, no one has been accused of padding returns either on account of a desire to get the few cents allowed for the enumeration of an individual.

How backward the work in Louisiana and Mississippi is may be inferred from the fact that reports have been made by the Census Office as to only six places in the two States: Jackson, in Mississippi; New Orleans, Shreveport, Kentwood, Lake Providence and Opelousas, in Louisiana. Mississippi is the only State that has the distinction of having the enumeration of but one place reported.

A report on the whole country by counties is promised for the middle of November, but the folks that make it have not a convincing way of saying it. There is an impression among those who have been watching the work of the Census Office with a fair degree of assiduity that it will be fully a month later than the estimated time before the report by counties for the whole country is given to the public. The work is complete only as to Rhode Island, Michigan, Missouri, New Mexico, Delaware, Texas is the only State of the far South that is anywhere near complete, but lately the returns from that State, at one time coming out from the Census Office with rapidity, have been much slower.

"AT YOUR SERVICE"—PLATT.

When you want distribution of any nature attended too, I will be glad for you to call telephone 241—The Times office, where I can be found, always ready to report. And if you don't believe I distribute advertising matter to the best advantage, ask some of my regular customers. Charges reasonable.
